Holiday Gift Idea

The Square Golf Ball can become the most interesting and talked about holiday gift this season. Truly unique, totally customizable with any photo or phrase desired – and totally unexpected. Novelty at its best! While women are certainly candidates for this type gift, men are more often thought of for this type item. The fact is that it's actually difficult to find a good gift for under \$10 for the guys. The Square Golf Ball meets all those requirements. Make it special – make it personal – make it fun. The Square Golf Ball is the gift that won't end up in a drawer or closet shelf, hidden away from sight or use. Instead, The Square Golf Ball will be out in the open, gracing an office desk, a table at home, or tucked into a golf bag for fun on the course with fellow golfers. Let The Square Golf Ball solve some of your gift giving needs – buy several and spread the fun. Besides being completely new and conversational - The Square Golf Ball is light weight, making it easy to mail without breaking the bank. Get your orders in now, and have the best gift ever in hand without muss or fuss. Go one step further and get the Fun Pac – two regular golf balls ready for use on the links, plus one Square Golf Ball, each imprinted with the same message, logo or photo. Now you've got a gift that is both truly novel and which can be used on the course.
