Black Friday Alternative

The Square Golf Ball offers a true Black Friday alternative. While The Square Golf Ball is not available in most retail outlets this year, it seems like doing a little on-line shopping would save the hassles and aggravation of in-person shopping, especially when it comes to smaller more personal items. So do yourself a favor – rest easy, sleep in and let your shopping experience be on-line this season – and let The Square Golf Ball be on your list for all your friends and relatives. You still have ample time to order a custom imprinted unit – giving your gift a truly personal touch. This will be the most unique gift they get, and one that will be remembered and talked about for years to come. Select from a variety of pre-produced ready-to-go units, a totally custom imprinted unit, The Square Golf Ball On The Green (customized), or the new and hugely popular Fun Pac – you'll be able to satisfy all your holiday gift needs at one time – without the Black Friday hassles (unless of course you enjoy big unruly crowds, pushing, shoving and long lines!) We do know that virtually nothings compares with The Square Golf Ball - this is the most interesting, unique and amazing little novelty gift ever made, and Made In The USA too!
