Most Novel Item Ever

The Square Golf Ball® is without question the most novel and unique item ever made. Ok, that may be stretching it a bit, but The Square Golf Ball® does represent a quality unparalleled. Funny though – you can find a square tennis ball. This is another novelty item, but doesn't lend itself to imprinting due to the fuzzy surface. We're pretty confident that The Square Golf Ball® stands alone and we know for a fact that this item has never been produced anywhere on the planet. Go figure. Look at The Square Golf Ball® and you'll see the uniqueness jump out at you. Your mind wants to make it round. Your brain is confused. Logic is somehow distorted. But, it's real. That is what makes The Square Golf Ball® such a conversation piece. Contiguously novel. People are driven to pick it up and get a closer look. Get one for yourself and see what we're talking about. Put The Square Golf Ball® on your office desk and see the reactions generated. But keep an eye on The Square Golf Ball®, otherwise you may have an empty spot where it used to sit! Luckily, it is easily identifiable – so you'll find it quickly (we hope). The Square Golf Ball® is patented by Bright Valley Enterprises LLC. The words "The Square Golf Ball" are trademark protected. Any infringement or copy of design or wording will be prosecuted to the fullest extent of the law. With a novelty item as unique as The Square Golf Ball® the temptation to duplicate may be attractive. We hope everyone can enjoy The Square Golf Ball® produced in the USA. We also ask that any suspected non-authentic duplications be reported to us as soon as possible.
