18 Holes Of Fun

The Square Golf Ball® has offered a humorous collection for some time now. Everyone likes a laugh. Now we've expanded this fun so that every hole can have a laugh – 18 golf quips and jokes on three Square Golf Balls® will keep you looking forward to the next hole. Imagine how much fun you'll have. Keep it light – for some this golf thing becomes a bit too serious – let The Square Golf Ball® become your buffer and provide some laugh relief at the tee box. You can select from the collections of humorous one-liners and jokes that we've assembled, or you can create your own. Personalize it for even more fun. The Square Golf Ball® is as similar to a traditional golf ball in every fashion. The outer skin is made from polyurethane, which most golf balls are made from. A second material called Surlyn is also used by some manufacturers. The Square Golf Ball® has the same dimples as a traditional golf ball, although because there is physically more surface area, there are more dimples. The diameter of The Square Golf Ball® is the same as a traditional golf ball. The inner core of The Square Golf Ball® has no bearing on performance, so the core is substantially different, yet the perceived weight of The Square Golf Ball® is that of a traditional golf ball. Every aspect of a traditional golf ball was considered and factored in when designing The Square Golf Ball®. And it shows.
