Check out all our Custom Gifts – certainly one of these will be the right one for the situation – and the personal touch makes it all that much more special. Forget the tie – get dad something unique and amazing - The Square Golf Ball® won't disappoint. The Square Golf Ball® is as similar to a traditional golf ball in every fashion. The outer skin is made from poly urethane, which most golf balls are made from. A second material called Surlyn is also used by some manufacturers. The Square Golf Ball® has the same dimples as a traditional golf ball, although because there is physically more surface area, there are more dimples. The diameter of The Square Golf Ball® is the same as a traditional golf ball. The inner core of The Square Golf Ball® has no bearing on performance, so the core is substantially different, yet the perceived weight of The Square Golf Ball® is that of a traditional golf ball. Every aspect of a traditional golf ball was considered and factored in when designing The Square Golf Ball®. And it shows.
